Subject: RE: HEARING on proposed changes to Net Metering Credit values: Wednesday!!!!

Hello All,

The hearing last night was very effective. The evening started with great testimony in the form of a letter from the Cape Delegation, followed by strong individual testimony from Rep. Randy Hunt, Senator Julian Cyr and Rep. Timothy Whelan.

After that, the DPU heard from the AG's office. The AG is calling for a decrease in Eversource rates, never mind decrying the raise proposed by Eversource.

Then town officials from Tisbury, West Tisbury, Chatham, Barnstable County, Bourne, Harwich, Provincetown, Barnstable, and Yarmouth took the podium, identifying the specific effects on their towns and counties' services and tax base if the DPU allows Eversource to slash the value in the Net Metering Credits.

While Edgartown and Orleans could not attend, CVEC has collected letters from these towns as well.

CVEC will rely on the testimonies you have all provided as we make our case against the Net Metering Credit devaluation. We ask remaining members and participants to provide their individual testimony too! All testimony should be in the form of a letter on letterhead addressed to:

Mark D. Marini, Secretary
Department of Public Utilities
1 South Station
5th Floor
Boston, MA 02110

Please send your letters to CVEC. To be included in CVEC's case, the deadline for your written testimony is next Thursday at the end of business. Friday morning CVEC will submit its testimony on your behalf. The letters you submit to CVEC will make our case. Without testimony from those affected, CVEC hasn't much of a case. We can only preserve the value of Net Metering Credits if we have your testimony.

Thank You,

Liz

Subject: RE: HEARING on proposed changes to Net Metering Credit values: Wednesday!!!!

Good Afternoon,

This week, on Wednesday, Aug. 2 at 7:00pm, the DPU will hold public hearings at the Cape Cod Community College's Tilden Arts Center on the Eversource Rate Case, Docket 17-05. CVEC will speak and hopes that all towns, districts and schools participating in Net Metering Credit exchanges will be present to make their case too. CVEC provided three meetings last week and the towns, districts and schools who were able to have an attendee present have agreed to produce letters, which they will read on Tuesday under oath and then submit.

This individual testimony is critical to the success of the CVEC case against the Eversource proposed rate change and decreased valuation of Net Metering Credits. The CVEC statement that the proposed change in rates will cost our towns, districts and schools over $1,000,000 will not have the impact it needs without supportive evidence of specific losses to the towns, districts and schools. The DPU needs to hear that the savings have played a critical role to the towns.

For instance, has there been a specific program or salary provision that the savings have allowed? If so, this needs to be stated. The potential impact from decreased savings needs to be attached to real losses for the towns, districts and schools.

CVEC is here to help with your testimony should you need it. Do not hesitate to reach out.

See you Wednesday night!

Also, if you need more time to provide written testimony, the deadline for written

testimony is August 31. Again, we are here to help.

Thank You,

Liz

Subject: RE: CVEC MEETINGS on proposed changes to Net Metering Credit values
Importance: High

Hello All,

As noted, CVEC will provide three informational meetings to help municipalities, schools, counties and districts understand Eversource's threat to reduce Net Metering Credit benefits and what CVEC proposes to do about it. The attached letter gives more details.

Here are the meeting locations and times:

- ON-ISLAND: July 20th, Katherine Cornell Theater, 51 Spring St., Tisbury. 2-3pm
- OUTER CAPE: July 21st, Eastham Library, 190 Samoset Rd., Eastham Room. 2-3pm
- MID & UPPER CAPE: July 24th , Sandwich Hollows Golf Course, I Round Hill Road, East Sandwich (off service road that runs between exits 3 and 4). 2-3pm

We hope to see you there so we can unite to prevent the Eversource undermining of your current savings as well as the utility's move to cripple renewable energy investment!!!

Thank You,

Liz

Subject: RE: CVEC action on proposed changes to Net Metering Credit values as presented by Eversource on Friday, June 2nd

Good Afternoon,

The attached letter notifies our member-towns and participants that due to the very real threat of lost savings through Net Metering Credit devaluation, CVEC will seek intervenor status in the current Eversource Rate Case hearing! This letter will also go out to town managers via US Mail on Monday.

Your community stands to lose substantial Net Metering Credit savings and future town budgets will be affected.

The DPU hearing process is fast-moving with evidentiary proceedings beginning in July and a DPU decision scheduled for September. CVEC's intention is to retain legal counsel to facilitate CVEC's participation as an intervenor on behalf of our members.

In addition, CVEC will schedule three informational meetings to give members and participants an opportunity to learn more about the Eversource threat, as well as information on CVEC actions to counter.

As always, call or email with questions.

Thank You,

Liz

Subject: CVEC action on proposed changes to Net Metering Credit values as presented by Eversource on Friday, June 2nd

Hello All,

Last Friday, the local utility, Eversource, submitted revisions to its rate case, which has been under review by the DPU since late winter.

Following the Eversource rate revision submittal, on Monday CVEC sent letters to the Attorney General and the DPU, joining our voice to the voice of the AG in demanding an extension to the review period for these newly submitted revisions.

Today, using Friday's Eversource revisions to the rate case, our CVEC Executive Committee was able to provide an estimated calculation, demonstrating that there will, in fact, be a detrimental impact to Net Metering Credit (NMC) values from the proposed rate case revisions submitted last Friday. The potential negative impact is due to proposed changes to the distribution fee components of the NMC value.

Today's revelation of a negative impact to future Net Metering Credit values is, and should be, a concern to our Members and is a "Call to Action" for the Cape & Vineyard Electric Cooperative. These proposed revisions will indeed affect projects now receiving Net Metering Credits.

The CVEC board will meet next Friday morning, June 16th, to further discuss implications of the proposed rate changes and to determine our course of action. We will meet in the Innovation Room in the OpenCape Building at Barnstable County Complex at 9:30 am. All are welcome to attend.

We will keep all our members and participants informed as we proceed.

Thank You,

Liz
