

March 1, 1969

*The Planning Board met in the Selectmen's office at 1:30 P. M. on the above date. The meeting was presided over by Byron Butterfield, Chairman. Present were Byron Butterfield, Harold Grant, Charles Gilmore, Stanley Tenney and Mildred Dudley.*

*Under discussion was Article # 16 re: the establishment of a disposal area for the Town.*

*Byron will ask Mr. Hatfield if we can put a monetary value in the Article.*

*The new disposal would consist of an incinerator, ( to be built by ourselves ) which would burn bottles, cans and everything with the exception of old cars, refrigerators, etc. It would be cheap to operate. ( The one at Ajax, Ontario, cost \$19,300.00 to build which takes care of a population of 12,000 ). A conventional incinerator would cost \$500,000.00 for the same capacity. If we could put this type of incinerator into operation we could then keep the same location.*

*A motion will be presented at Town Meeting on March 11, by Stanley Tenney and seconded by Harold Grant.*

*Mildred Dudley*  
Secretary
