

Minutes Selectmen's Meeting November 15, 1976

Eric Tenney and Richard Schacht present, Eric Tenney presiding.

The Selectmen met with Merle Aborn Road Agent and discussed the condition of roads and bridges in the Town of Antrim. They discussed which roads or bridges needed major repairs and how the money would be raised. Some of the more costly projects probably would be accomplished by warrant article. The Selectmen also discussed the Road Agent's budget and asked him to get some figures together for future use. The question was raised by Dick Schacht about the State's responsibility in the case of the bridge on Elm Avenue since they own the land on either side of the river all the way down to the lake.

The Selectmen discussed a memo to the various departments asking for reports and budgets. The secretary will send a memo to the various departments and ask that these reports be available by December 15, 1976.

The Selectmen signed checks and adjourned at 9:00 P. M.
