

Selectmen's Meeting, Monday, June 1, 1981

Paul Mercier, Chairman, Katherine Ring, Leslie MacNeil met at 7:30 at which time they signed checks, tax warrant, building permits.

Ann Hennesey, and Doris Gilman of the Library Trustees were in and recommended Pam Boorum be replaced by Jane Miller. They are looking to keep a balance of age group. Doris was sworn in at this time.

Brian Brown gave a weekly report. Quiet week for this time of year. Chris is doing well at the academy. It was agreed at this time that any door to door salespersons will clear it with the police dept.

Henry Cutter was informed that the fire dept will not be filling swimming pools from now on as they are on meter, and there are chemicals in the water.

All repairs to any building in the towns ownership will be repaired at the towns expense and then there will be no problem in where the money is coming from and how to pay it back. Firemen have made considerable changes in the fire house without town approval, and the question of keeping funds earned at functions to pay back the fire men was discussed at some length. When the town has approved repairs, money will come from the town and when firemen are running different functions the money will go back into the town account to cover any repairs. Since the men have laid out about \$1,500. It may be possible for them to recoup some if not all of their money by having a money making function or renting the hall. But in the future all is to be down through the Town Meeting and the Selectmen's office.

George Cole has been told the State is agreeable to have him cut through sidewalk but if his to get involved in cutting ditches, a permit will be needed.

George Mellon will be asked to check North Side of lot at Goodell Co. to determin town property line.

George Carlson, Ed Rushbrook from Anderson Nichols met with the selectmen, and Sewer committee, to go over all problems with the sewer hook ups and installations. A list of the major problems were given to George and it was agreed that he would meet with the road agent and some one on the sewer committee to go around and view all the problem areas. He said all problems will be corrected and property put back in proper condition. Many of the problems he was not aware of and showed concern for the number and particular problems.

Jim Dennison sat in with the selectmen and looked over Mr. Pjura's permit problem. It was agreed that Mr. Pjura move the house to leave the proper distance from his lines and the permit was issued.
