

Selectmen's Meeting, Monday, June 7, 1982

Present: Katherine Ring, Chairman, John Jones, and Betty Shaw Secretary. The meeting started at 7:30, Les MacNeil arrived at 8:00.

Selectmen signed checks, abatements and went over weekly mail.

Brian Brown requested that the selectmen write a letter to the dispatch service informing them that Antrim will be leaving the dispatch center this December. Owners of the property on 202 called Brian after receipt of the letter from selectmen informing owner of the condition of the property left in the care of M. Paige. They are very cooperative and want to do all to clear up the condition of property. It was suggested taht the selectmen write and ask if they would consider having the house burnt as a fire experiecnce, aãd work bee for the fire department. The house is unsafe at this time.

Bob Watterson asked the selectmen if it were possible for him to meet with the road agent to find out just what he would have to do to upgrade a road to his property. Once the road is upgraded he wants to put it in the town warrant articales in hopes that the town will assume the responsibility for the road.

Paul Dunlap was in to see about a rebate on his boat tax. This tax was paid, and later an article in the paper called attention to the fact that his size boat does not require a tax. A check will be made out next week.

In answer to the post office letter, nothing more can be done for White Road at this time. George Cole, Road agent hopes to get some time to do repairs to the road once the weather clears us and he finishes the repairs needed to close out the sewer project.

Bud Hardwick ~~wmet~~^{went} over all insurance coverage. Selectmen were surprised to find they are not covered for liable damages. Bud cautioned that when the selectmen choose insurance coverage by price only they will risk geting less quality for the money.

C. J. Grabowski wnatod to see what came of the meeting of the selectmen and the library trustees. K. Ring asked where he was, and C.J. G. said he was not liable to go and was busy that time. It was once again explained that the selectmen have no say as to what goes on at the library. C.J.G. did not agree. He did ask since the town owns the building, how can the trustees throw him out of a town building? NO answer was given, since none of the selectmen were present at the time the insident happened.

R. Rudolph asked about upgrading of his road in order to have it plowed since it is his understanding that since it is a town road he can not plow it himself, yet being a class 6 road the town does not care for it. He also told the selectmen that he had an appraisal of the property and it was found to be 13+ acres. He is being charged on ten acres and can not put the land under CUV.

Mr. Rudolph was told that an appraisal at his expense, if it should show the added acres the selectmen will once again look into his being granted CUV.

A discussion on the solar exemptions took place among the selectmen as to what is needed to be granted a solar exemption. A call will be made to the state to clear up the matter.

Bruce Keirstead was granted the window contract. This is a warrant item to make the building more energy efficient.
