

Selectmen's Meeting, Monday, July 11, 1983

Present: Leslie MacNeil, chairman, John Jones, Katherine Ring.
Selectmen met at 7:30 to sign checks, a building permit for R. Varnum was signed. L. McQuillan's permit will need explanation and the Septic approval will need to be attached to Whittemore and Sutherland permit.

Rusty from Bellows Nichols was in to explain to the Selectmen the change in Companies for the Town coverage.

Geo. Cole, road agent gave a run down of the work having been completed. Depot St. is completed and Turnpike Rd. may be completed this week. When the Road crew went to do Mrs. Corson's property, she asked that they hold off since she had company, it will now be a few weeks until the crew will be able to get back to do the job. George is trying to combine jobs to get the most done for the least cost to the town. The road crew will be cutting brush for the next few weeks while men are on vacation.

Les does not want coverage on the tools listed as covered along with the radios. Will check with insurance co.

Last weeks minutes were accepted.

An appointment will be set up for Thursday, July 21, at 4:30 with Mr. Kargman of BIDCO.

Personal letter to request an appointment. (D.P.)

Next week oil bids will be checked into.

Harry Clough or Bill Houghton should look into the problem at No. Branch.
