

Thursday, October, 17, 1991

Present: Edwin Rowehl, Chairman, Phil Dwight, Dave Boule', Bob Varnum, Road Agent.

Meeting called to order at 8:30 AM.

Bob reported another major break down of the loader. A costly repair was made the early part of the year. Estimate for the present repair was a few thousand dollars and it is uncertain if the motor is damaged. With the loader being twenty years old the Town can expect one repair after the other. Getting parts has become a problem also.

The Board agreed that approving the present repair without being sure just how extensive the damage is, was not a wise way to go. They discussed the possibility of the purchase of a second hand loader, or a lease, purchase agreement. Several calls were made to dealers to get some figures.

No decisions were made at this time.

Selectmen adjourned 10:30 AM.
