

Selectmen's Meeting, Monday, April 19, 1993

Bob Varnum, Road Agent, reported the need to have the body of the 8000 Ford replaced. The cost to replace the body and sand blast and check the underside for cracks will come to about \$5,000. After some discussion of the highway budget, the selectmen authorize repairs be made to the truck. Bob asked approval to strip the old truck and keep the parts when he acquires his new truck. The old truck is of no value but for parts which the road crew could use. Selectmen agreed as long as the parts are stored and the truck disposed of properly.

West St. road improvement was reviewed as well as the need to have the roads sealed this year. The weather has caused havoc with all the road in town. Tom will check into the need for a wetlands permit to replace the culvert on West St.

Tom will check into having a public phone placed outside the town hall.

Parks and Recreation minutes were reviewed. Selectmen asked that the members be notified that the selectmen will require more details on the use of the gym before they vote to implement any fees as only the selectmen can set policy for the use of town facilities.

Selectmen discussed notifying all property owners of the upcoming revaluation.

Selectmen agreed to hold meeting the 1st and 3rd Monday of each month. If there is need to hold other meetings, notice will be posted of time and date.

Selectmen signed the supplemental intent to cut for the Winslow and Franseen properties. They also signed the yield tax warrant.

Meeting adjourned. 8:15
