

Selectmen's Meeting, Monday, July 26, 1993

Present: Phil Dwight, Chairman, Dave Boule', Tom Davis, and Betty Shaw, Secretary.

Meeting called to order at 7:00 PM.

Dough Tatro, ARTS supervisor, met to discuss the appointment of the assistant for the part time position to ARTS. Dave moved to hire Bill Lang as assistant. Second, Tom. All in favor. It was agreed to raise Bill's pay from \$6.00 an hour to \$7.00 per hour effective immediately.

Secretary is to call for application for Level III certification for Dough.

It has come to the attention of the BOS that one business has been removing items and later selling them at their home based business. This was not the intent of setting up the swap shop. Items taken must be for personal home use and not commercial use or sale. A letter will be mailed to persons who have availed themselves of items for resale.

Dave moved that no articles are to be taken from the swap shop for sale. Second Tom. All in favor. So moved. A sign will be erected at the recycling station notifying all taxpayers that items from the swap shop are not for resale.

A fee schedule was discussed to cover cost of a roll off dumpster to assist taxpayers who have furniture, or demolition material to dispose of. The schedule will allow for contractors who are doing business construction within the town to dispose of the material from Antrim property. (This can easily be checked by looking at building and demo. permits.)

Tom moved to accept the minutes of July 12th. and 19th. as written. Second, Dave. All in favor. So moved.

Brian Brown, Police Chief, discussed the range of salary and procedures to be followed when hiring a new officer. Secretary will check with the Antrim Medical Group to see if they will agree to a set fee for physicals on prospective employees.

Brian informed the selectmen of a Youth Services program which is in place to allow an alternative step before going to court with first time youth offenders. There is a cost of \$50 for each youth referred to the program. The Selectmen were in agreement with using the program and Brian will look into the offender covering the cost.

Selectmen discussed the Chicago Cutlery property, and the landfill closure.

Phil gave a general run-down of the comments on the audit. All selectmen see purchase orders as a waste of time for all.

The wetlands permit for West St. was received and approved. When contractor signs it a copy will be posted at the site.

Dave Boule' ad Phi Dwight met with Mr. Belanger on Pierce Lake to look into a water run off problem which has existed since work was done on the road to Breezy Point. Mr. Belanger approved of plans to install a culvert and granted permission to have the water redirected and discharged over a portion of his property.

Selectmen also viewed White Birch Point Rd. Selectmen agreed to have a culvert moved to redirect as much water flow as possible away from the Suydam property. Since Mr. Suydam's property is below road level, it is impossible to stop all the flow.

Selectmen discussed a fee schedule for the use of the gym. No decisions made.

Meeting adjourned 8:45
