5.34 Special Regulations for Village Center District – The following regulations are intended to support commercial development in the Village Center District by establishing a mechanism for provision of public off-street parking facilities in lieu of private off-street parking.

a. Except for buildings or parts of buildings designed, intended to be used, used or occupied for residential use, all or a portion of the required off-street parking may be

waived by the Zoning Board by special permit when the property is located within the Village Center District, provided that:

- (1) The Board finds that there are sufficient publicly-owned parking spaces in the vicinity of the property to justify the waiver without detriment to the public health, welfare and safety; and
- (2) The owner or occupant of the property on which the waiver is to be applied pays to the Town a fee equal to the fair market value of the waived parking spaces (the area of which shall be determined by the number of waived spaces times 300 square feet) plus the cost of converting such spaces into a parking lot, as estimated by the Planning Board with the advice of the Highway Superintendent.
- b. If the property owner donates to the Town a public right-of-way providing an important pedestrian or vehicular linkage in accordance with a downtown circulation plan adopted by the Planning Board, the Board may reduce the fee specified in paragraph 5.34 a(2) above by an amount equal to the value of the donation, up to the total amount of the fee.
- c. All fees collected under this Section, [and all interest earned thereon, shall be deposited in a separate Parking Facilities Fund established by the Board of Selectmen,] and shall be used for the acquisition of land, improvement, or maintenance of municipally owned off-street parking facilities for the benefit of those buildings, structures and uses in the Village Center District and adjacent areas.
- d. Any waiver of off-street parking approved under this Section shall run with the land, and any subsequent changes of use that requires more parking shall require subsequent action to satisfy the additional parking requirement. No refund of any payment shall be made when there is a change to a use requiring less parking. Such payment and/or donation shall be made to the Town in total prior to the issuance of a building permit

5.10 SITE PLAN REVIEW AND APPROVAL

5.104 Design Review Principles and Standards in the Village Center District.

The Planning Board shall establish and adopt design review principles and standards intended to guide the applicant in the development of site and building design and consider these principles and standards in its review of proposed actions. These principles and standards shall not be regarded as inflexible requirements and they are not intended to discourage creativity, invention or innovation. The Planning Board is specifically precluded from mandating any official aesthetic style for Ashburnham or for imposing the style of any particular historical period. The design review principles and standards shall apply to all actions requiring building permit in the Village Center. Add this to Section 5.10 (Site Plan Review and Approval). This is to be applicable for the Village Center District.

- a. No off-street parking area, except for one required driveway, shall be located between the street line and the front line of the building.
- b. All off-street parking areas shall be screened from adjacent properties by provision within the required side and/or rear yard of:

 - Appropriate low fencing as permitted by Section 4.37 of the By-Laws.

MUNICIPAL FINANCE TERMS - GLOSSARY

1. Excess and Deficiency (E&D) – Surplus Revenue

The amount by which the cash accounts receivable and other floating assets exceed liabilities and reserve funds.

2. Free Cash or Available Fund

Surplus revenue less outstanding taxes owed from prior years.

3. Overlay Fund

Amount raised by the assessors by setting the tax rate, creating a fund to cover abatements granted.

4. Overlay Reserve or Surplus

Unused accumulated amount of the overlay for various years, which may be VOTED by the town for extraordinary or unforeseen purposes.

5. **Reserve Fund**

Amount transferred from overlay surplus or appropriated for unforeseen or emergency purposes. Controlled exclusively by the Advisory (Finance Committee) Board.

6. Available Funds

Free cash reserves and unexpected balances from other years available for appropriation. This affects the tax rate indirectly as any money spent other than that reimbursed by the County, State or Federal government must be raised by taxes and fees.

7. Estimated Receipts

Estimate of miscellaneous receipts based on previous years receipts deducted by the assessors from the gross amount to be raised by taxation.

8. Matching Funds

Amounts made available by special State and Federal acts to supplement appropriations for specific types of projects.

9. Cherry Sheet

Details of State and County charges and reimbursements used in determining the tax rate. Name comes from the color of paper used.

10. Override Vote

An override vote becomes a permanent increase in the levy limit (the amount the community can raise through the property tax). Override requests must be presented in dollar terms and specify the purpose. A majority vote of approval by the electorate is required.

11. Debt Exclusion and Capital Outlay Expenditure Exclusion

A community can vote to assess taxes in excess of its levy limit or levy ceiling for the payment of certain capital projects, *a capital outlay expenditure exclusion*; or for the payment of specified debt service costs, *a debt exclusion*. The additional amount for the payment of the debt service or capital project cost is added to the levy limit for the life of the debt only. Unlike overrides, exclusions do not become part of the base upon which the levy limit is calculated for future years. A majority vote of approval by the electorate is required for both types of exclusions.
