**Update on New Members**

Committee members were asked who they tried getting in contact with. Consensus is that people who were contacted said they were either too busy or they simply did not respond.

In order to get more people to join the Steering Committee, Eric will write an article for the Barrington newspaper summarizing what a Community Profile is and encouraging residents to join the Steering Committee. A flyer will also be created that will be distributed throughout the town to further promote the Steering Committee.

Jim Farnham asked if he could view the Community Profile video before the next meeting. Eric volunteered to mail the Community Profile video to Jim Farnham by next week.

### **Important Dates: Steering Committee**

Next meeting will be scheduled for Thursday, November 14, 2013.

### **Community Profile Event Dates**

It was recommended that the Steering Committee members begin to think about a date for the two-day Community Profile event. When scheduling the event it will be important to take into consideration other events happening in the town, such as town meetings, school vacations, etc. It was proposed to have the event sometime in April 2014.
