The Committee reviewed a presentation on the history of the project and considered the pros and cons of six options. During the conversation after the presentation there were additional alternatives considered, including:

- Build a women's jail
- Build a Community Corrections Center only.

Other ideas discussed were development of a pre-trial release program and how to expand Community Corrections.

There was significant discussion about the best way to further evaluate the original facility plan to demolish the oldest section of the jail and renovate the newer section to accommodate a CCC. Then to rebuild a new jail, in place. This will be further explored at the next meeting.

The next meeting was scheduled for 10/1 @ 6pm. Meeting adjourned at 9pm.

Respectfully submitted,

Debra Shackett
