Boxford, Ma. 01921

July 27, 2015

RE: 26 Arrowhead Farm Road, Notice of Intent Application Amendment to Parcel 37-1

Dear Mr. Povenmire,

It has come to our attention that the **existing pool, pool decking, pool utilities, and original pool house** were **not permitted** under a Notice of Intent. As a representative of the new owners we would like to **amend our Notice of Intent Application** to include the above described work undertaken by the prior owners.

The pool and related facilities are shown on our existing conditions plot plan, dated June 23, 2015 by AGH Engineering, which is part of our Notice of Intent submission.

As you are aware, we proposed minor modifications to these facilities to minimize the pool area impacts to the adjoining 25' no-build setback line to existing wetland. Three modifications will lessen impacts on the adjoining wetland: 1) removal of 16 sf. of pool decking which is within the 25' no-build setback line, 2) existing pool house to be demolished and relocated at the west end of the pool decking, and 3) the decking material is in disrepair and shall be replaced so that no erosion or siltation of the existing deck surface can discharge to the adjoining wetland.

Thank you for your cooperation with this matter.

Sincerely yours,

Daniel C. Orwig
