Re: Violation Notice and Notice to Appear at Conservation Commission meeting to be held at
Boxford Town Hall, 7:30 p.m., August 20, 2015

Dear Mr. and Ms. Enes,

I am writing to inform you that an unauthorized trail has been discovered leading from your property across an intermittent stream channel and into town-owned land adjacent to Butman Pond. I attach photographs which clearly show that no trail was present in 2010. This trail is located in protected Wetland Resource Area and associated buffer zone. The establishment and use of the trail constitute violations of state and local wetland protection regulations. I have placed warning tape across the trail to discourage further trail use, and have informed Ms. Enes by phone that the tape must remain in place and any further use of the trail abandoned.

You are also hereby notified that this matter will be discussed at the next Conservation Commission meeting scheduled for 7:30 p.m. Thursday, August 20. Your attendance at this discussion is requested by the Commission.

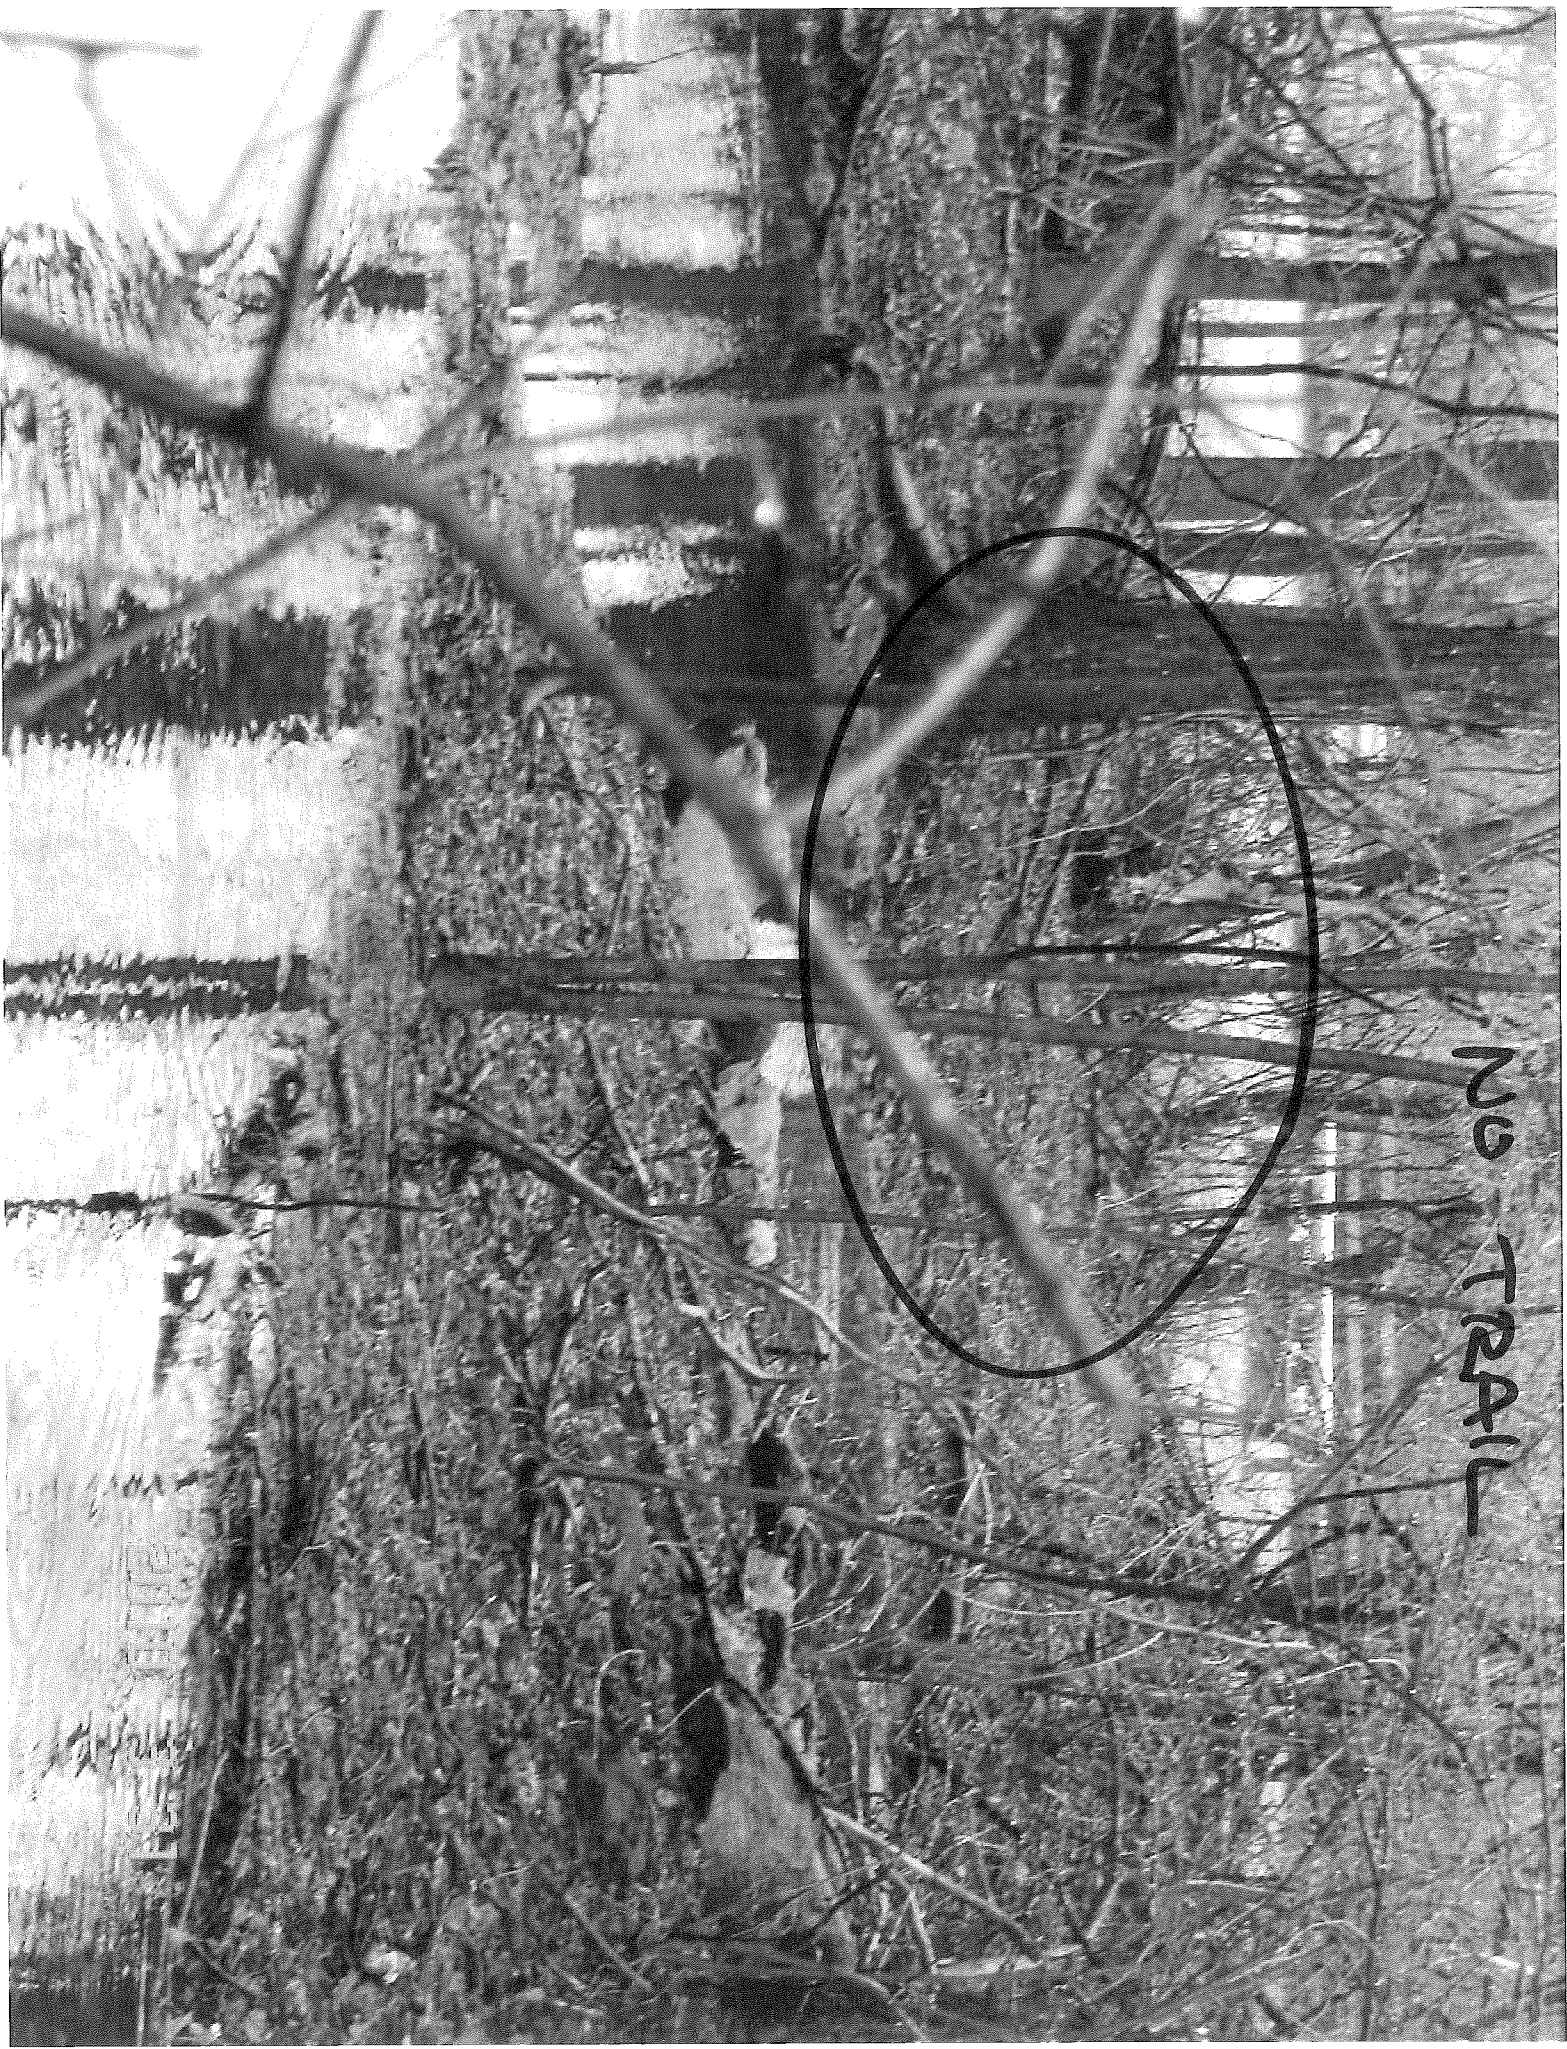

Sincerely,

Ross Povenmire
