2. a. Work Description (use additional paper and/or provide plan(s) of work, if necessary):

Remove and relocate propane tanks and concrete pad from area adjacent to dining hall to the outer buffer zone on the other side of existing building, and replace existing deteriorating deck with larger deck incorporating new exit from building. The deck will require 4 sonotubes and will be located 45 feet to the bank at its closest point. The existing dining hall is located 41 feet from the bank. Erosion control will be installed between the project site and the lake. All areas disturbed during removal of the concrete pad and installation of the sonotubes will be immediately mulched and seeded.
