RE: Tree removal request

February 17, 2018

To Ross Povenmire:

I request a determination of negligible impact for six trees located in the back of my residence at 23 Valley Road. I have attached photos of the six concerning trees that I feel are hazardous to the welfare of my family. For example, the trees are approximately 80' to 90' tall and all our bedrooms are in the proximity of these particular trees. I feel because of their deteriorating condition there are detrimental to the welfare of my family and we do not feel safe especially during wind and rain storms as well as snowstorms. I appreciate your consideration in this matter.

Respectfully,

Ann Mingolla
