Boxford, MA 01921

Ross Povamire
Planning Board

I have met with the fire chief and the proposed driveway will meet with Chief Gieger's recommendations.

1. The driveway will be a minimum of 12' wide for the final hot top, as noted on the plan.
2. The existing house driveway will be used as turnaround, approved by the Fire Department Lieutenant. (2 emails attached)
3. Driveway will be marked by granite post, noted on plan, with 61B (photo 61A)
4. The house will be sprinkled.

Thank you,

Daniel Arsenault

Dan

I sent Ross an email and CC you on it.

I also wanted to mention that my Lieutenant went to your house to back the truck into the driveway. The firefighter stated that the driveway was fine but I want to talk with my Lieutenant to get his thoughts.

Hi Brian,

Any update on the driveway letter to the planning board and testing the turnaround with the truck?

Thanks, Dan Arsenault

Dan

Just talked with my Lieutenant and he stated that existing driveway is all set.
