Subject: Position on non-residents fishing commercially

I fell that the current shellfishing rules should be amended.
I feel that any boat registered in a town other than Chilmark should not be used for commercial shellfishing.

We should not allow for any person to be aboard a vessel that does not have a valid Chilmark commercial license.

The rules are supposed to be posted 10 days before the opening of the season. This means that we can not prevent anyone from taking someone commercially this season.

We should revisit all of the rules again during the spring.

Thanks Isaiah L. Scheffer
Chilmark Shellfish Constable
