**Attachments:** Landfill connector 2011.pdf; CH maint agrmt - landfill.doc

Hi, Tim.

I looked at the American Tower's DAS installation at the landfill and there doesn't seem to be any problem with the proposed trail link opening up views that are meant to be screened. If the town desires, Matthew could flag the proposed route between the landfill entrance and the connection to Tabor House Road across from Pasture Hill Road for your review prior to cutting the trail. Please let me know.

Also, although the selectmen apparently approved the idea of this trail link some time ago, the land bank has never received a signed maintenance agreement. We will need that prior to proceeding to create the trail. I've attached both a copy of the agreement and the illustration that I previously provided.

Thanks for your assistance. - bv
