PROCUREMENT REQUEST

Tim Carroll-Procurement Officer,

The Tri-Town Ambulance Service is requesting the procurement of a new laptop system to update, and enhance, the current system that is in use. The laptops are currently used to write Patient Care Reports (PCR's) via the Ambupro Software system. Our current system is outdated and will not accept the new Ambupro software updates. By updating the system we will not only be eligible for new software updates, we will also have the capability to send 12 lead electrocardiographs from the ambulance while en route to the hospital. After reviewing the state contract list, we have decided to use the following companies to purchase all the necessary components for the new laptop system. We have comprised a list of vendors, items and costs for all parts required:

- Computer – (4) HP Elitebook Revolve 810 G2 – Hub Tech Services - \$6380.00
- Modem – Verizon wireless modem MIFI no cost
- Wireless – service monthly \$39.99
- Mounts for Ambulances (4) estimated at \$140.00/unit
-

The total estimated cost will be \$6980.00. While we did not include this start up expense into our FY 2015 budget, we have \$11,617.00 remaining in the 4-13 #25 TTA New Ambulance warrant article from FY 2014, account number 29 231 9288 5854 13. Monthly mobile wireless access expenses will be covered by the Telecommunications line item within the FY 2015 budget. With your assistance we would like to begin the procurement process as soon as possible. Thank you for your time.

Sincerely,

Paul Wilkins-Chief
Tri-Town Ambulance
