Hi Tim,

Good to talk to you.

As agreed, Marc Rosenbaum P.E. will work to find a real solution to the Community Center floor problem. His time is billed at \$185/hr and we expect that he will be able to find answers and prepare a report for +/- \$2,000 of time. As I mentioned, he was very pleased with the quality of the insulation and vapor barrier work done under the floor - a good step in the right direction.

Please send the monitoring information you referred to.

Thanks so much,

John
