

Massachusetts Electric Vehicle Incentive Program (MassEVIP) Phase III

MassDEP will review all MassEVIP Phase III applications received for completeness and eligibility. Upon satisfactory review, the agency will within 30 days of receiving applications issue Grant Application Approvals and End-User Agreements defining the terms and conditions of the incentives being awarded to recipients. After completing and signing their End-User Agreements, approved entities have up to 180 days to complete their vehicle acquisitions and charging station installations, as applicable. MassEVIP provides incentives directly to vendors on state contract or to entities directly if they choose other vendors.

Here are the prices as listed on Commbuys.
