Type of injury/ Complaint goat, leg horns chasing woman down hill to lot

Narrative-

Niko was in parking lot + I was in shack when we saw if heard woman come running down hill. I go chasing her. I told her to stop running + went + got rake, to keep distance + try to encourage her back up hill. We wound up in parking lot, woman arrives to go back home but goat kept trying to follow her. She said goat belongs to her neighbor, Doug Hyman. Some goat so I told her that chased woman around beach chair. Niko grabbed small horn, eventually goat headed up road to shack. We didn't catch goat just tried to keep him away from woman. He had shot catch on but must care rendered/Action taken have taken out of fencing, hooped + peed on road

by shack. We called township/way to send ACOP police but no one showed up. Eventually he decided to head home but we had people coming in to go to beach. This goat can jump up + down rocks like a goat! + if there had been anyone, esp women young children it could have been dangerous. We raked + swept poop off road, so that walking + young children with no shoes didn't step on it.

Follow up-

Police showed up and went to woman residence off Shark Lane @ 11:07. Jonathan + Billy just came back + station goes sitting outside + women not home but they will try + contact him.
