

Adult and Community Education Of Martha's Vineyard

March 4, 2016

The Town of Chilmark
PO Box 119
Chilmark, MA. 02535

Dear Selectmen,

This letter is a request to use Lucy Vincent Beach as a classroom for an Island Geology class we are offering on July 19, 2016, weather permitting. Information about the class, as it will appear in our upcoming *ACE MV Spring/Summer Course Catalog* is below:

Understanding the Island's Geology in 3 Walks

Instructor: Doug Cooper

How old is Martha's Vineyard and what forces shaped the contours of its natural beauty? The story of the formation of Martha's Vineyard is layered in the landscape. Come learn this story and uncover the secrets of the Island's formation from the last ice age to present day by exploring geologically important sites throughout the island, including the clay cliffs at Lucy Vincent Beach in Chilmark. **Class size is limited to 15.**

3 Tuesdays, 4-5:30pm

July 12, 19, 26

Fee: \$99

Location: Various

We are requesting to be able to park no more than 2 vehicles at Lucy Vincent Beach on July 19th from 4:00-5:30. If the parking lot is full then we can drop off the students and park at the town hall until the class is over. The instructor will make absolutely certain the students will be on their best behavior and that no student will touch or disturb the cliffs or dunes. In case of inclement weather, we would like to set July 26, 2016 as a make up date.

Thank you for your consideration and for helping us fulfill our Mission of providing Islanders with accessible and affordable continuing education and lifelong learning opportunities.

Respectfully,

Samuel A. Hart
Executive Director

Adult and Community Education of Martha's Vineyard (ACE MV) provides affordable and accessible educational opportunities for college credit, certification, training and enrichment to the Island community.

ACE MV is a 501 (C)(3) private non-profit tax-deductible organization, EIN 26-3371336.
