---

Tim,

Would you please forward this to the Selectmen - and, if appropriate, put this request on the agenda for their next meeting so that — if I am to be reappointed — I am reappointed before the Martha's Vineyard Commission resumes meetings in the new year.

I would like very much to be reappointed to the MV Commission as the Chilmark Selectmen's appointee. I have now served as their appointee for several years. The work of the Commission is work that I believe is very important to the entire Island and, while I believe I have represented the Island's interests. I believe I have also represented Chilmark's interests over the course of my tenure.

I am somewhat of a tireless Commission member. I attend every Commission meeting if I am on Island, I regularly attend the LUPC meetings, and I have chaired and participated in a number of committees, some of them ongoing. Specifically, I chaired the Demolitions Guidelines committee, I am on the Finance Committee, I am on the Nitrogen Policy Review committee, I was on the DRI Checklist Review Committee - to name a few. Oh, and I am the chair of the Planning and Economic Development Committee.

I have also been the Commission's representative on a number of ancillary committees - the Fertilizer Regulation Committee, the Tisbury Committee to Regulate Pond Nitrogen - again to name a few.

I actually love this work and I have the time for it. I would ask that you please reappoint me.

Joan Malkin
