Come back and see all that Cape Light Compact has to offer you!

Dear <FirstName>,

Have you heard the latest news about Cape Light Compact? Cape Light Compact’s power supply program is going 100% renewable with the help of NextEra® Energy Services Massachusetts (NextEra Energy Services), which will be providing electricity to all of the Compact’s Cape Cod and Martha’s Vineyard customers. Together they can help you save money, energy AND the environment.

See savings against the current Eversource rates.

This new program will cost less than Eversource’s current Basic Service ¹ for all Compact customers– great savings for you, and it will be priced competitively going forward.

Residential	9.930 Cents/kWh	<small>Valid from January 2017 meter reads to June 2017 meter reads</small>
Commercial	9.700 Cents/kWh	<small>Valid from December 2016 meter reads to June 2017 meter reads</small>
Industrial	9.800 Cents/kWh	<small>Valid from December 2016 meter reads to March 2017 meter reads</small>

Save on energy.

NextEra Energy Services will provide electricity that is matched with renewable energy certificates (RECs) equal to 100% of Compact customers’ electricity usage. Go to www.capelightcompact.org/power-supply for more information on RECs and how RECs help expand renewable energy across the country. Some of the usage will be matched with a locally-sourced renewable generator from the Greater New Bedford Landfill Gas Utilization Project and solar projects on the Cape and Vineyard. The remaining electricity will be matched from EarthEra™ RECs.

Big benefits for the environment.

The Compact’s Agreement with NextEra Energy Services requires them to develop new renewable energy projects in North America through EarthEra Renewable Energy Trust (Trust), with an effort to direct the funds to projects in New England. Information about the Trust, and how it works can be found on the Compact’s web site at www.capelightcompact.org/power-supply.

Come back to Cape Light Compact today – You can *Save Money*¹, *AND the Environment*.

Visit capelightcompact.org/power-supply | Call 800-381-9192 today to sign-up

Find out more about how Cape Light Compact’s contract-free, renewable, and affordable power can work for you.

Sincerely,

Margaret T. Downey, Compact Administrator
