Subject: kayak storage at town landing

Dear sirs: I am writing to request the construction of kayak storage at the town landing for the 2018 season against the Millers fence. There are so many more kayaks being stored at that location and the boat launching dock has become totally compromised.

In addition someone is storing conch traps at this location that take up significant ground space that could be used by boaters and for parking.

Can you paint lines on the pebbles to indicate where people should park so we can maximize the number of cars that can use the lot?

Thank you for any assistance you can provide to help make our boating and use of the ramp more rewarding.

Thomas Ashe
