**Subject:** Please include the library trustees on July 10 BOS

Dear Tim,

At their meeting on June 27, the Library Board of Trustees voted unanimously to ask the BOS to reconsider their approval of a proposed summer parking plan for the town-owned school lot, especially in light of the fact that the library was not included in any planning for or discussion about this proposed new plan, which would have a serious negative impact on Library patrons and staff. Please include us on the agenda for their July 10 meeting.

On a positive note, I believe we are in agreement with Alexandra London-Thompson, CCC executive director, on an alternative that will meet the CCC needs without negatively impacting the library patrons and staff. We ask that library patrons and staff be permitted free access to the school lot and any signage erected have words to the effect of "Parking for Community Center and Library only during the following times:" Alexandra has indicated to me that she does not oppose this.

Thank you,  
Ebba
