Hello,

You asked me to be a explain more the kind of things we would like to do in Menemsha. Most of the shots will be lifestyle (of the talent and scenery, occasionally having the car in the background. We have 2 in talent and they will be doing things like walking on a dock, eating something, or shopping. We more than likely will feed the crew someplace there also. If the director wants to film the talent eating, I will get permission from the restaurant owner and and pay them. I have attached some photos from the photos the director took when we were scouting. Many of them are from Aquinnah at the end of W. Basin Road. We are filming the car on Lobsterville and W. Basin roads with a drone and have permission and will have police detail with us.

We will use a handheld camera or have it on a tripod. It would be nice if we had the option to use the drone. We may be using small reflectors or small LED lights with battery packs. Our schedule has changed. We would like to come for about 2 hours in the afternoon of Friday September 14<sup>th</sup>. We will be about 12 - 15 in crew, clients and talent, and will stay out of the way of tourists & business deliveries. We will not stop traffic.

Please let me know if there are any permit fees, or if you would recommend a police detail or anything else. The production company carries full liability insurance and will add the Town of Chilmark as an additional insured. If you have any questions or concerns, you may reach me via email or cell phone (both below).

Thank you in advance for your consideration.

Best,  
Karen Stark
