Oct. 6, 2009

The October 5, 2009 meeting of the Deep River Fire Commission began at 7:15 P.M. with Spitzschuh, Berardis, Budney, and Woodcock, and Kollmer in attendance. Fire Marshal Nolin, member B. Raymond, and Engineer White were also present.

The September 14, 2009 minutes were reviewed. Accepted as written. Moved Woodcock, 2nd, Berardis. Unan.

Financial statements were reviewed. There were a few credits/adjustments corrected. There should also be a Hardware credit coming through that has not posted. There will be a big bill for a thermal camera coming. All other bills were regular. Kollmer moved to pay bills. Unan.

Chief reported 13 calls last month.

There was no word on the construction grant. Notifications should have been received by October 1st.

Both the \$6,000.00 and the \$20,000.00 requests for addition plans and Rescue truck equipment have been turned down. The Commission will pursue some of these funds by writing to the Selectman for his involvement.

Deputy reported the Company is working harder to use the hi-band radios before determining whether they will work for the Department. They will also meet with surrounding Towns to see how theirs are working for them.

Fire Marshal submitted bills, Activity Report.

Most calls were routine.

The fire works went well. There were a couple of potential problems that were avoided.

There Engineer's reported several hassles with the new truck's alignment. The front was fixed and now the side is not aligned. There seems to be no reason this would affect it being operational. They will now truck to speak with only Spartan about the problem.

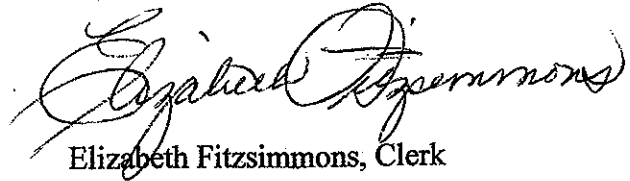

At 7:45 P.M. the fire whistle went off and this meeting ended. It was determined before this some Commissioners and the Clerk would stay behind to work on the letter to the Selectman

There was no other business.
