

13 November 2017

**TO: Board of Selectmen**

**FROM: R.E. Leighton, Building Official**

**Re: BUILDING PERMIT FEES**

**( Construction, Electrical, Plumbing, Heating, & Mechanicals)**

**Subject: PROPOSED ADJUSTMENTS**

The current building fees are as follows:

***\$25.26 for the 1<sup>st</sup> \$1,000 of construction valuation.***

***\$15.26 for each additional \$1,000 of construction valuation.***

The \$.26 is the mandated Education fee to the State of Connecticut.

Due to ever-growing complaining from the Applicants having to bring change and/or forgetting about the Ct. Educational Fees, this Office is simply eliminating the change and rounding the permit fees to whole dollars. As a result this Department is proposing the following change:

***\$26.00 for the 1<sup>st</sup> \$1,000 of construction valuation.***

***\$16.00 for each additional \$1,000 of construction valuation.***

The Educational fee is included and will be paid by the Town in the same manner. This small increase also takes into account any new Educational increases currently under consideration by the State with this adjusted proposed.
