

Firehouse Study Committee
174 Main Street
Deep River, Connecticut 06417

Regular Meeting Minutes of May 5, 2011

The meeting was called to order at 7:05pm by John Kollmer.

Members in Attendance: John Kollmer, David Beradis, Ron Larson, Tim Ballantyne, Linda Hostetler, Steve David & Paul Carlson

Audience of Citizens: None

John Kollmer introduced Linda Hostetler to the Committee and answered any questions she had with regard to what the Committee has done thus far.

The Committee discussed the pros and cons of alternate locations in Deep River to build a new firehouse and reports will be created for each location.

The current property at 57 and 51 Union Street was discussed and was determined the most feasible location for a firehouse. It was also discussed that depending on the size requirements, an entirely new building could be built directly next to the old one and then the old building be razed once completed.

The Committee will work on the alternate location reports and the Union Street property feasibility.

The meeting was adjourned at 8:30pm.

Respectively Submitted,

John R. Kollmer
Chairman
