

Regulations Committee Agenda

May 2, 2019

The regulations committee will look at a number of floating zones/overlay District's from a number of different towns. This is only the start of the process of looking into floating zones for deep River. This would not be possible without the help of the deep River residents Who have stepped forward to help. I hope other residents who are interested in our regulations will also come to our meetings to be held the first Thursday of each month at 5:30 PM. If time allows we would like to discuss the harbor district, storm water and food trucks. Any interest in deep River residents are urged to attend and discuss their concerns about regulations
