

**Conservation Commission Minutes**  
**Meeting – March 26, 2015**

**Present:** Steve Barrett, Louis Misiun, Jr., Ben Byrne  
**Absent:** Brian Dejnak, Bob Cowles

The meeting was called to order at 7:00 with Steve presiding. Minutes of the January meeting were approved.

**Old Business:**

- Certificate of Compliance – Mill Village Riverbank Stabilization (DEP# 142-0175)  
New England Environmental has completed a five year monitoring of the riverbank, and is now requesting release. The Commission planned to conduct a site visit prior to the meeting. However, due to the winter conditions, it agreed to continue the decision until April 30<sup>th</sup>, at which time a site visit can be conducted. Hopefully, by then winter conditions will have abated and a better evaluation of the site can be made.

**New Business:**

- RDA – Kiel McAvoy presented a plan to build a single family home on property of Leonard Skalski on South Mill River Road. The Board determined that work on the site (at the corner of Settright and Conway Rds.) will not alter the area. A negative 3 determination was agreed upon.

**Next meeting:** The date of April 30, 2015 was set for the next meeting.

The meeting adjourned at 7:15 pm.

Respectfully submitted,  
Priscilla Phelps
