

**Board of Health Minutes**  
**April 19, 2016**

The meeting opened at 7:00 P.M. with Ms. Amodei, Mr. Moeller and Mr. Parkin present.

The minutes of the meeting of April 5<sup>th</sup> were approved as written.

All bills and time sheets submitted were approved for payment.

**Rabies Shot Waiver**

A request for a waiver from a rabies shot for a Jack Russell Terrier dog owned by Shawn Ferrari at 313 Forest Street was approved by the Board based on a letter from the Pepperell Veterinary Hospital.

The Board would like a titer test for Maya next year if they put in for the waiver again purely for information purposes.

**Second Hand Inc.**

The Board approved the placement of a container at the transfer station for the collection of books/media/game for recycling. Some of the items are sold on line but the majority is donated to non-profit organizations.

**20 Parkhurst Street**

**76 Parkhurst Street**

The Board reviewed plans for both the above and approved them with their signature on the septic permits.

**445 River Street**

Mr. Hannaford came before the Board with a request for a well permit for the above lot. Although the septic plan has not been approved as yet, the soils are all sand and there should not be a problem with the design. The new owners are about to lose their financing on the lot if a building permit is not issued soon. The lot was sold to Mr. Chad Potvin by the McGovern family with the understanding that the septic plan was approved and now they have found out that it is not approved. The plan will be submitted at the next meeting.

The Board reviewed all the facts and gave permission for the well to be drilled at the owners own risk.

**47 Alexander Way, Lot 11**

The Board reviewed the septic plan and noted that the limit of fill for the reserve area spreads onto the adjoining lot. Also the fill area for the primary area needs an easement.

The plan was not approved.

The meeting adjourned at 7:45 p.m.
