I. Aquaculture Management Plan

Don Merry, John Brawley, and Dick Loring have been meeting about the aquaculture plan and it should be solidified soon. They estimate that they need one more week of meetings to finalize it. They will aim to distribute the plan via email and to talk about it during the November 15th meeting. Members from other town committees should be invited to attend that discussion, including the Agricultural Committee, the Harbormaster Department, shellfish growers association. John Brawley will contact these people.

II. Lojko Pier

The members reviewed the plan for the Lojko pier and see no issues. Ned Lawson will draft a response that states the DBMC found “minimal impact” will result from this pier.

III. Miscellaneous

The meeting that had been scheduled for Thanksgiving night will be held on November 15th.

There being no further business, the meeting was adjourned at 7:35 pm.

Respectfully submitted,

Corey Wisneski
Secretary
