I. Duxbury Harbor Dredging

N. Lawson has been in touch with the USACE project manager for Duxbury Bay. We need to make our case that the Harbor needs to be dredged in order to be more likely to get stimulus package funding.

II. Storm Plan Update

N. Lawson is waiting on more information from JR Kent before updating the storm plan.

III. State of the Bay

N. Lawson has been contacting people in search of data on bivalves and other wildlife.

IV. Moorings

The Storm Management Plan needs to be completed before additional moorings should be assigned. Mooring survey questions need to be drafted and it would be helpful to get the numbers of landowners with waterfront property.

There being no further business, the meeting was adjourned at 8:00 pm

Respectfully submitted,

Corey Wisneski
Acting Secretary
