

## Duxbury Alternative Energy Committee

Minutes of March 4, 2014

Duxbury Senior Center

**Members present:** Jim Goldenberg, Jack Doherty, Leslie Lawrence, Lewis Segall,  
Stephen Campbell, Sandy von Stackleberg, Josh Cutler

**Members absent:** Susan Fontaine, Robert Schnibbe, Tom Burton, Lynn Smith

1. Meeting called to order at 7:40 pm
2. Unanimous approval of minutes of 2/11/14
3. There was no discussion re the South Plymouth wind farm or our pending contract with the developers as Joann Levesque did not attend this meeting.
4. The solar array ground breaking went very well. Kudos to Josh for his welcoming remarks and speech regarding the background of this AEC project. The media was there to cover the event.
5. Sandy gave an update on the Kiosk project for the solar array. The Kiosk will be sighted near the trash receptacles and may have a solar powered readout of energy output.
6. Other business:

Barbara Bartlett has received a grant for the Town to install solar panels on the roof of the new high school. A vendor has been chosen. The array should be up and running in about 6 months.

Update on wave action investigation: Sandy announced that a Maine company will come to Duxbury and investigate the possibilities if the flow of water under the Powder Point Bridge and the Bluefish River is more than 5mph. Don Beers has been asked to measure this speed.

7. There being no further business, the meeting was adjourned at 8:15 pm.

Respectfully submitted,

Leslie Lawrence
