Education Cost Sharing (ECS) Funding

MOTION By Barbara Rossi seconded by Ram Aberasturia to **adopt** the following resolution:

Whereas, the town of East Hartford currently has a mill rate of 43.85 and struggles to maintain a properly funded police, fire, health, parks, youth and other departments within the town administration given the limited growth in the grand list that East Hartford – along with virtually every other town in the state encounters; and

Whereas, the town has increases in excess of \$2.2 million for contractual settlements of less than 2% and another \$1.4 million increase in pension plan and health benefit contributions; and

Whereas, the town has reduced its town employees, excluding police and fire, by 25% since 1990 or more than 77 employees, negotiated health insurance plans that focus on wellness in order to limit medical expenses, eliminated its pension plan for most new hires after 2006, and limited outstanding bond indebtedness, yet still has multi-million dollar increases in costs; and

Whereas, such budget constraints limit the town's ability to provide additional funds to the board of education for their increased costs in the 2014-2015 fiscal year; and

Whereas, since 2012, the amount of state educational cost sharing funds provided to the town has not increased, yet the town has increased its contribution to the board of education by \$4.7 million so the town has done what it can when funds are available; and

Whereas, under the Alliance school district plan, the state has diverted normal ECS funding increases, providing the following funds directly to the board of education: \$1.7 million (2013); \$4.4 million (2014) and \$6.5 million (2015), yet restricted such grants to new programs; and

Whereas, the Alliance funding program means that next year, the board of education will have \$6.5 million in funding for new programs but no funding to pay for any increased costs associated with current programs such as math, science and art teachers, guidance services, and textbooks; and

Whereas, this imbalance means that while the board of education's new programs have abundant resources, their existing core instruction programs will be starving;

Now therefore be it resolved that the East Hartford Town Council urges the Governor, the General Assembly and the town's legislative delegation to revise the Alliance school district funding criteria to allow flexibility to use those funds for existing instructional support increased costs and more specifically to allow the unrestricted use of the approximately \$2.5 million increase in Alliance school district funding association with ECS funding provided directly to the board.

On call of the vote, motion carried 9/0.
