RE: Water Protection Collaborative

Dear Mr. Cakounes and Commissioners:

The Town of Eastham would like to request your support of the important work conducted by the Cape Cod Water Protection Collaborative and the role of Mr. Andrew Gottlieb as the Collaborative's Director. Andrew has provided leadership in obtaining SRF funding that will provide cost savings throughout Cape Cod.

The collaborative exists to offer a regional forum to build support for action and foster regional solutions. Jane Crowley is the Town of Eastham's representative on the committee. Each of the town's representatives share information on a wide range of topics and issues. Eastham is currently engaged in a development of a Town wide Municipal Water System at a cost of \$136 million dollars as the primary objective in providing public health from land use activities and wastewater impacts. Although other communities are currently focused on dealing with wastewater projects Eastham's experience provides an opportunity to expand the regional focus on water quality to a broader level that include the importance of groundwater protection for municipal water supply, private wells, fresh water ponds and marine water quality. Our Eastham plan is unique in that water supply infrastructure is the first step in our water protection plan. We now work toward development of watershed approaches to wastewater management plans that will provide maximum benefit at the lowest cost possible but exploring all options. As a regional body, we benefit from the experience and lessons learned in other communities. We share in the successes and collectively learn from the failures. The Collaborative has provided funding to support the investigations of pilot projects that may prove to be successful cost saving alternative technologies.

All the towns on Cape Cod and our County are faced with enormous challenges of water protection and wastewater management. The Collaborative provides all the towns to equally share such issues, discuss possible solutions and discuss possible means of funding these solutions. We need to work together to address these enormous challenges.

We ask you to support the Collaborative as a significant means to address our water and wastewater issues.

Respectfully,
Eastham Board of Selectmen

Subject: February 2nd Meeting on Substance Abuse/Mental Health Navigator

Rae Ann, Sheila and Jacqui,

Please invite your Selectmen and any other interested parties to this meeting on February 2nd.

As you may be aware Provincetown residents funded a community resource navigator program which identifies, establishes contact with and provides case management services for individuals in need of substance abuse and/or behavioral health services and related services. A local group has identified a need for a similar program in Wellfleet and other towns here on the Outer Cape. In discussions with representatives from Outer Cape Health Services we believe that the best model for Wellfleet would most likely be a joint effort between Truro, Eastham and Wellfleet. One navigator should be able to assist our three towns.

Outer Cape Health Services has agreed to present the concept to our three towns. **We will be hosting that meeting here in Wellfleet at our Council on Aging building (715 Old Kings Highway) on Thursday, February 2nd at 6pm.**

We will also invite representatives from Provincetown who have worked on and monitored this program.

Best Regards
Dan

Dear Sir or Madam:

I am writing to remind you the amount necessary to be appropriated at your annual town meeting for our Cape Cod Greenhead Fly Control District. The amount of \$1700.00 should be appropriated so it would be available for payment for the greenhead fly work done during the summer months of 2017.

The amount of \$1700.00 should be sent to:

The Commonwealth of Massachusetts
Department of Agricultural Resources
State Reclamation Board
251 Causeway Street
Boston, Massachusetts 02114

The payment would be appreciated as soon as possible after your town meeting.

Sincerely,

John W. Doane
Superintendent
