

## Minutes - Cemetery Trustees Meeting of 8 October 2015

Present: Trustees Gordon Clough, Richard Henderson & Mary Quintana, & Sexton, Will Shoemaker

1. Cal Felicetti, Member Consulting Arborist, was brought in to evaluate the state of the two large maple trees in Paddleford Cemetery. Mr. Shoemaker was told that both trees had extensive damage and were in imminent danger of falling. In addition to the probable harm to nearby structures, it is likely that all adjacent graves would be unearthed. Mr. Shoemaker has requested bids for removal of these trees from two sources.

2. Mr. Clough researched scattering gardens and we will be going on with our plans for same.

3. Change to Rules & Regulations: \*

6 (e) change fee for transfer of lots \$10 to transfer of lot \$5

4. Add to Rules & Regulations

25. All memorial services held on cemetery grounds must be scheduled through the Cemetery Sexton.

\* The rationale for this change - in Lakeview a deed covered 3 to 4 grave sites - in Countryside each grave site is a separate lot.
