

Falmouth Conservation Commission
Minutes of January 3, 2011

Meeting convened at 7:00 PM

Members Present: Mel Dickenson, Nancy Light body, Jerry Good all

Members Absent: Frank Ruch

Minutes: We reviewed the minutes of the Dec. 6th, 2010 meeting but were unable to approve them due to lack of quorum

Discussion:

1.The Conservation Commission's recommendations in RCZO (Conservation Zoning) were discussed and accepted. They will be sent to the Council.

2.Shorefront Landowner mailing: We discussed gathering information on good management practices to promote healthy plant growth to retard erosion on waterfront slopes. We will do Web research on this and seek information from Friends of Casco Bay (Casco Bay Estuary), Cumberland County Soil & Water Conservation District, and Maine Audubon Society. We will then put this information into electronic format for a brochure. We are planning to have the brochure ready to mail by the end of February.

3. We had a brief discussion concerning having speakers at public meetings to promote an interest in Environmentalism and Conservation. This could have a secondary benefit of attracting interested people to join the Conservation Commission.

The next meeting of the Commission will be Monday, February 7 at 7PM in the Town Hall.
