

July 19, 2008

**Falmouth Green Ribbon Commission (FGRC)**  
**Energy Work Groups (Energy Efficiency & Renewable Energy Groups)**  
**Draft Minutes of July 16, 2008 Meeting**

The Energy Efficiency and Renewable Energy Work Groups of the Falmouth Green Ribbon Commission met on 7/16/08 at 7 pm at the Falmouth Town Hall in Council Chambers. Present were: Michael Morrison, Brian Milliken, Craig Baranowski, Mike Draper and Bob Welch.

Initial discussions constituted a planning session on how to best accomplish the tasks assigned to the work groups at the 7/10/08 meeting of the full FGRC.

Discussed was joining the Energy Efficiency and Renewable Energy work groups. Since most members overlap and many interests are intertwined, the sentiment was to do so.

A broad strategy discussion followed on what to recommend to the full FGRC, including technologies, a range of implementation options, incentives and financial/economic considerations.

It was agreed to tentatively schedule the next meeting for 7 pm on 7/23/08.

The meeting adjourned at approximately 9 pm.

Respectfully Submitted,

Robert Welch
