Auburn, Maine 04210

Re: 12 Chestnut Street

We have received your request that the Town allow for relocating our sewer easement on the property at 2 Chestnut Street to facilitate your remodeling plans.

A decision on this matter must come from our Town Council. We are willing to support your request with the Council conditional on your agreement to assume all survey, legal, filing or other costs to layout and establish a new 20' wide easement towards the southeast side of the property.

Please contact me and let me know if this arrangement is agreeable. Should you have any questions, I can be reached at 781-4462.

Sincerely,

Robert Clark
Superintendent
