Re: Stormwater Ordinance Amendments

---

Please find in your Council packet the final draft of the amendment to adopt provisions for monitoring stormwater improvements so that we meet state requirements.

Since the public hearing, we have made minor compositional changes to the language to help clarify the language and to assure that terms are not in conflict with other sections of the ordinances.

The modifications do not alter the substance of the language presented to you in the introduction or at the hearing.

I will be happy to answer any questions you might have.
