RE: SIGN ORDINANCE

Dear Amanda,

On behalf of Steve Woods we request the Town consider two minor changes to the Sign Ordinance. These changes, I believe, will bring the current signs into conformance with the regulation. Below are the revisions:

SECTION 5. SPECIFIC REQUIREMENTS

6) Dimensions

- a) Overall Height including supporting structure shall not exceed **eight (8) feet** ~~six (6) feet~~ above natural ground. Height shall be measured as an average height from the original elevation to the top of the structure.
- b) Height to Width Ratio - All signs shall be oriented horizontally with a height equal to or less than the width.
- c) Letter size shall be between **four (4)** ~~five (5)~~ and fifteen (15) inches in height.

Please note the small letters on the TideSmart Global sign are 4" in height. The piers at the end of the sign are approximately 6'-9". I believe an 8 foot sign height similar to this sign would not be out of scale on Route One.

Please let me know if this is satisfactory. Steve will be available for any meetings on the issue.

Sincerely,

PINKHAM & GREER

Thomas S. Greer, P.E.
