RE: Plummer Property

Dear Nathan,

The Falmouth Memorial Library's Board of Trustees appreciate and want to thank you and the Town Council for its support and patience as the Board deliberated the Plummer School proposal and other options for its library expansion needs. The Board has decided, however, not to accept the offer of the Plummer School property.

We believe the following message appropriately describes the Board's position:

"The Board of Trustees of the Falmouth Memorial Library would like to thank the community for its interest in and support of a library expansion. It has been a privilege to work with Ocean View while pursuing the option of a new library at the former Plummer School. We thank them for agreeing to support us regardless of our decision. We voted unanimously not to accept their offer of land and the Plummer School. The trustees decided the finances for this option are not feasible at this time. Additionally, we understand people have an attachment to the current location and building which are a focal point of our community. Potential opportunities on site are being pursued."

The opportunities we are pursuing will require the Town to be an active partner to be successful. We hope to discuss this further with you as soon as possible and will contact you to set up a meeting.

Again, thank you for your support as we continue to seek a solution that will benefit the Falmouth Community as a whole.

Thank you,

Kim Millick
FML Board President
