CITY COUNCIL MEETING

AGENDA ITEM VI

CITY OF FRANKLIN
COUNCIL AGENDA REPORT
City Council Meeting of May 7, 2012

From: Richard Lewis, Planning and Zoning Administrator

Subject: City Council to consider the passing of Resolution 15-12 for the appropriation and expenditures of Municipal Transportation Funds

Recommended Motion:

"I move that the Franklin City Council approves Resolution 15-12 which outlines the proposed appropriations and expenditures of Municipal Transportation Improvement Funds to be associated with ongoing transportation improvement project in the downtown area by a roll call vote."

Mayor calls for a second, discussion and the vote.

Discussion:

As you are aware, the City was awarded federal funds several years ago for the design and construction of transportation improvements in the downtown area. The engineering and design work was completed approximately a year ago and the project went out to bid in late May of 2011. The construction firm John H. Lyman and Sons was awarded the contract and work began in late summer. A substantial amount of the work was completed last year but some remaining work will be completed this spring and early summer.

Due to a combination of a positive bidding climate, savings from some anticipated work items not being required, and some general savings in the quantities of the construction materials we have some excess funds. These funds can be used to complete some additional improvements that were part of the overall planning and permitting procedures but could not be included in the bid plans due to anticipated project costs.

My office has been working with the engineers, McFarland Johnson, and the project manager from NH DOT to address all of the steps needed to utilize these excess funds. After multiple communications and a meeting at DOT on 3/22/12, the issues have been resolved and an approval will soon be issued to the engineers to allow them to proceed with the necessary change orders.

After consulting with the project engineers and taking input from the public safety officials, we conclude that the following tasks should be completed with these excess funds:

- ✓ Install a new traffic signal control loop on Central Street;
- ✓ Modify the Timing and Phasing of the traffic signals, taking into account the improvements from the two tasks above;
- ✓ Install a new Fire Pre-emption receiver and signal device on Central; and,
- ✓ Replace the older and deteriorated sidewalks on the north side of Central Street between Memorial Street and Smith Street.

The first three items listed will help ensure that the Fire Department can move safely through the intersections along Central Street, and to help ensure that the traffic signals work as effectively as possible to best manage and control traffic flows through these same intersections.

On multiple occasions, the engineers from McFarland Johnson have indicated that the best way to make sure the City gets its full value of the federal funds is to go slightly over the federal earmark budget. Otherwise we may find ourselves with some level of funds [for example \$1000 or \$2000] left on the table and unavailable because there is not enough left over to accomplish a certain task. The proposal being put before the Council is to give ourselves the appropriate flexibility by utilizing the Municipal Transportation Fund, which was established by the City Council in 2009. Per RSA 261:153, these funds can be used for transportation improvement projects such as the one now funded solely by the federal dollars.

The attached resolution, subject to a public hearing proposed for the May meeting, would allow the City to spend up to Five Thousand dollars [\$5,000.00] from the Municipal Transportation Fund, which currently has a balance of \$106,570.00. Depending on how the construction work goes this spring and summer we may not need to spend any of these Fund dollars, but having the flexibility to spend up to the proposed \$5,000 limit may result in the best utilization of the federal funds.

Fiscal Impact:

The only fiscal impact to the City is the possible expenditure of funds that are already restricted for the use of transportation improvement projects. No general fund money will be expended.

Alternatives:

The Council can either set the public hearing and approve the appropriations and the expenditures, or in the alternative vote to not hold the hearing and thereby the possibility is that some of the federal earmarks may be left unexpended.

**CITY OF FRANKLIN
COUNCIL AGENDA REPORT**
City Council Meeting May 2012

From: Elizabeth Dragon – City Manager
Subject: City Council to consider approval of Opera house lease May 2012 through May 2017 (5 year term)

Recommended motion:

1. Councilor moves:

“I move that the Franklin City Council approve the Opera House lease entitled “Management Agreement between City of Franklin and Franklin Opera House May 2012 through May 2017”

2. Mayor asks a second, discussion, and calls the vote.

Discussion: The most recent agreement with the opera house expired on May 3rd 2011 (that agreement was a three year agreement) There have been many changes with the Opera house which became The Middle and then changed back to the Opera House. Over the last couple years we had been working on a lease agreement but the process stalled when the organization requested a 30yr lease to meet grant/loan program requirements for a sprinkler project. Once the sprinkler project fell apart the lease language was changed back to a five year lease. It appeared we had agreement on the terms and language in the lease at that time. However, changes in leadership at the opera house once again put the lease on the back burner for us both. Now that the Opera house has reorganized and shifted focus, I am ready to bring the lease back for consideration.

I originally had proposed a three year lease (same term as the one that expired last year)- however I am not opposed to a five year term under the terms of this agreement.

I have better defined the areas used by the city and areas used by the opera house by adding a few sentences in the appendix. The city has been actively using office space on the lower level of city hall and actively using the meeting space as well.

The city attorney was involved in drafting language changes last year when the process stalled. This year when we brought the agreement back for consideration to the opera house we made only minor additional language changes to address ensuring restricted access to the building for safety reasons and including language that storage areas are subject to periodic inspections by the fire department.

CITY OF FRANKLIN
COUNCIL AGENDA REPORT
City Council Meeting May 2012

From: Elizabeth Dragon – City Manager

Subject: City Council to consider donating old money, and checks, of little monetary value but of great historical value to the Franklin historical society for display

Recommended motion:

1. Councilor moves:

“I move that the Franklin City Council approve donation of four two dollar bills and one dollar bill=\$9.00 from the 1880s to the Franklin Historical Society and three checks written to the Town of Franklin in the 1800’s”

2. Mayor asks a second, discussion, and calls the vote.

Discussion: The bills were in an envelope which reads.... “Tender \$9.00 for Taxes on CH Wiggin place. Recd from Edwin Judkins Sep. 30 1880. PC Hancock Town Clerk. This money was found at city hall several years ago. Leigh Webb from the Historical Society has inquired about the status of the money and whether the city would be willing to donate the money to the historical society for preservation and display into the future. The money is currently kept in the safe at city hall which is hot and over time is deteriorating the condition of the bills.

The money was found by a resident, Mr. Gile, who was looking through some old files in the GAR hall. Scott Clarenbach was filling in as City Manager at the time while the City manager was on vacation. It is my understanding that several years ago an “unofficial” appraisal of the bills was done by Littleton Coin back when Manager Doyon was here and it was felt the value together was about \$50 dollars.

In addition, we have also located three checks in the clerk’s office written in the same time frame that may be of interest to the historical society (copy attached).

CITY COUNCIL MEETING

AGENDA ITEM XII

CITY OF FRANKLIN
COUNCIL AGENDA REPORT
May 7, 2012 City Council Meeting

From: Judie Milner, Finance Director
Subject: Funding Alternative for Ambulance

Recommendation:

I recommend the Council considers an alternative option for funding the ambulance purchase approved by the Council on March 26, 2012.

Possible Motions:

May 7, 2012

Motion 1:

Councilor moves, "I move that the Franklin City Council considers an alternative option for funding the ambulance purchase."

Discussion. Mayor calls for vote.

Motion 2 (only if affirmative vote in Motion 1, otherwise no further action needed):

Councilor moves, "I move the City of Franklin City Council set a public hearing for Monday, June 4, 2012, at 7:05pm regarding the approval of Resolution 16-12 regarding \$230,000 ambulance funding through Northway Bank for a term of 7 years at 1.83% interest."

June 4, 2012

Councilor moves, "I move the City of Franklin City Council approve Resolution 16-12 \$230,000 ambulance funding through Northway Bank for a term of 7 years at 1.83% interest."

Discussion:

On March 26, 2012, the Council approved the purchase of a replacement ambulance for ambulance 1, the City's 11 year old ambulance whose engine failed, through a lease purchase agreement with a 4.16% interest rate and municipal non appropriation clause. Since that vote, the City Manager was approached about the possibility that bank note

financing would save the City money in interest charges. At the Manager's request, I solicited three banks in the City, Franklin Savings, Citizen's and Northway, for quotes. Franklin Savings quoted 3.15 % for a 7 year term. Citizen's quoted 3.25% but was not able to provide a term over 5 years. Northway quoted **1.83%** for a 7 year term.

The note program quoted by Northway will save the City \$15,446 in interest over the life of the note as compared to the lease purchase program through Republic First National as originally approved by the Council. Because of this significant savings, I am bringing this option forward to the Council.

The ambulance committee has solicited quotes, evaluated, and recommended the company and the purchase contract has been completed with Sugarloaf Ambulance Rescue Vehicles. The original leasing is ready and will be used upon delivery of the ambulance unless the Council approves another funding source.

It is important to point out that notes do not have a municipal non appropriation clause like leases. However, the selected ambulance vendor has offered in writing to purchase the ambulance for the amount of the remaining note balance should the City find itself in the unlikely position of not being able to appropriate payment for the ambulance. This may alleviate some concerns about any possibility that the City may not appropriate future payments. We can get this language approved by Paul Fitzgerald in May should the Council choose to entertain this alternative funding. It will be a separate document from the note.

Concurrences:

The Council approved the purchase of the ambulance through a lease purchase agreement on March 26, 1012. The lease purchase financing is ready to go as soon as the ambulance is completed and the City takes delivery (estimated 4-6 months). The ambulance purchase is under contract with Sugarloaf Ambulance Rescue Vehicles at this time.

Fiscal Impact:

Note funding through Northway Bank will save \$15,446 in interest costs over the lease purchase financing through Republic First National.

Alternatives:

City Council could remain with the approved lease purchase funding through Republic First National.

2. Mayor asks a second, discussion, and calls the vote.

Discussion:

Tax Map 078, Lot 006-07 and Tax Map 078, Lot 006-02 are Manufactured Homes in a Park. Because these documents had to be to Sue May a week prior to the May 7 Council Meeting, I expect that several of these property owners will be in to pay their taxes.

Concurrences:

This process is consistent with the State of New Hampshire Statutes with respect to deeding properties. If the Council decides against accepting this deed, the tax lien shall remain in effect indefinitely, retaining its priority over other liens. The taxpayer's right of redemption as provided by RSA 80:69 shall likewise be extended indefinitely, with interest continuing to accrue as provided in that section.

If at any time, in the judgment of the municipal governing body, the reasons for refusing the tax deed no longer apply, and the tax lien has not been satisfied, the governing body may instruct the collector to issue the tax deed, and the collector shall do so after giving the notices required by RSA 80:38a and 80:38-b.

80:39 II-a: the governing body of the municipality may refuse to accept a tax deed on behalf of the municipality, and shall so notify the collector, whenever in its judgment acceptance and ownership of the real estate would subject the municipality to undesirable obligations or liability risks, including obligations under real estate covenants or obligations to tenants, or for any other reason would be contrary to the public interest. Such a decision shall not be made solely for the private benefit of a taxpayer.

Fiscal Impact:

Lost Revenue to the City.

Alternative:

Referring to RSA 80:76 it states that the municipality may refuse to accept a tax deed on behalf of the municipality, and may so notify the collector, whenever in its judgment acceptance and ownership of the real estate would subject the municipality to undesirable obligations or liability risks, including obligations under real estate covenants or obligations to tenants, or for any other reason would be contrary to the public interest. The tax lien may be enforced by the municipality by suit as provided under RSA 80:50, and through any remedy provided by law for the enforcement of other types of liens and attachments.

The City partnered with the Franklin Mayor's Drug Task Force & Franklin Business & Industrial Corp (FBIDC) to build a new website. Twin Designs contributed wonderful professional photos of Franklin to highlight the beauty of the community. We are very excited about all that the new website has to offer. A couple new powerful tools include the ability to subscribe to news and alerts with a click of a button (check out "subscribe to e-alerts") and the City's ability to add an emergency banner across the front page of the website for breaking news such as road closure or any type of emergency notice.

Vitex Tour: On Monday April 23rd I accompanied the Mayor, Jim Aberg (FBIDC), Governor Lynch, several PSNH representatives as well as others on a tour of Vitex Extrusions new production line here in Franklin. Last fall, partly funded through rebates from Public service of NH, the firm installed a new pumping system that enabled it to double its capacity from 18 million to 30 million pounds of "lineal extrusions" per year. Vitex is looking to add 100 employees to their company in the near future. Vitex discussed the challenges of finding the right kind of employees for the future. This news and the recent growth at Webster Valve are signs of economic growth right here in Franklin!

Youth Government: is currently scheduled for May 29th, 30th and 31st this year. Tuesday kick off at city hall (Mayor & any city councilors & local legislators are invited to speak) 12:15-2:30 alongside dept heads as we give an overview of city government Wed 12:15-2:30 students report to respective departments Thursday students work with their department heads all day (8am-2:30) and at 6:30pm the Elks host a banquet, present awards, and the students hold a mock city council meeting.

Loyalty Day: On Sunday April 29th at 2pm I attended along with the Mayor and several City Councilors a ceremony at Franklin VFW honoring LT Stephanie Clough, Retired Chief Brad Smith, and High School Teacher Kerry Cook. Congratulations to all three honorees!

Headstart Grant & Bessie Rowell Community Center Project update: Great news! The City of Franklin was awarded the Head Start grant for \$350,000. This grant will relocate the Head

Start program to the Bessie Rowell building which is in the process of becoming the ***Bessie Rowell Community Center***. Head Start receiving this grant was key to making this project viable. Currently Tiny Twisters is in the process of preparing to move using a CDBG grant recently awarded in the amount of \$238,957. The Tiny Twister's project just recently went out to bid and was awarded. Security Cameras are being installed at entrances of the building through some matching funds that Tiny Twisters had available for equipment purchases. Mango Security has already begun work on this piece of the project. There are so many exciting things about a project like this-the ability to share space, the re-use of a building that otherwise sat vacant in a residential neighborhood and was beginning to be vandalized, co-locating services that support one another, the many uses of a brand new commercial kitchen, the many uses of a multipurpose room including a stage and another meeting space in the community...all these things are now becoming a reality in the ***Bessie Rowell Community Center***.

City preparations are also in the works-The Recreation department will begin their move after the summer program however preparations at the Bessie Rowell building have already begun for the recreation department. Phone and computer networking for the city should be complete before the end of June. Misc aesthetic improvements such as cleaning, painting, organizing and general preparation of space are also beginning as well.

This project is an excellent example of a variety of organizations (city & nonprofits) coming together to make a project work for the betterment of the children and the seniors of the community. It is thanks to the vision of the City Council & Mayor through some challenging moments that this project is possible.

Recreation Department update: The funding and all state approvals for the fishing pier project at Odell Park are in place and the project is ready to move forward. (as of March 26, 2012). Next, coordination between contractors and city services will begin. The city will dig the trench area where the concrete will be poured (by Beck & Bellucci). We have not finalized anything with Beck & Bellucci yet due to scheduling constraints. The recreation department is working with them as well as other companies that may be able to fit us in sooner. Brian Barry - Municipal services department will construct the decking. The funding for this project was raised through the Odell park committee and the city is contributing labor (digging the trench and building the deck). This project, like the many other recently completed projects at Odell Park, will be completed through the combination of fundraising and grant funding obtained by the Recreation Director and volunteers, as well as volunteer & city labor. The asset will then become the property of the city. This is last project on the list at the Odell Park for the committee.

Work at Daniell Park is currently underway. Funding is in place for the basketball court. However, the focus is the picnic area and parking area improvements which is expected to begin this month. The work on the basketball area is planned for the summer/fall time.

Stone Park is in serious disrepair and staff has recently removed the slide and bouncy toys due to the unsafe condition and recommendation by the Local Government Center in their recent inspection of all city playgrounds. The Recreation Director has recently received \$15,000 from KaBoom which is only half of the funding needed for replacement. Replacement of this park equipment is hopeful for the Fall/Spring depending on successful fundraising efforts.

There has been a conversation with all department heads working with committees that the city is currently at our capacity (as discussed with the council during our no numbers workshop) regarding projects and staffing. Therefore, we are attempting to focus our efforts with committees and volunteers on improving assets that are currently in existence instead of adding assets that require future maintenance etc. We are also attempting to finish existing projects and improve communications with volunteers to ensure that everyone is working on the same page.
