Mr. Stan Weglarz, 602 South Main stated he is here again concerning the highway litter and will not repeat what he stated to the Council months ago but have not had any report direct or indirect concerning what, if anything, is being done about the litter. He stated on South Main it is so bad he is ashamed to live along that Street. He advised that if nothing is done, he will be back again before the Council. Manager Dragon commented that since Mr. Weglarz was here last, MSD has posted signs and the Police Department has given out some tickets.

Mr. Robert Stephen, 50 Oriole Street stated he has some cost saving ideas. One thing he stated is the City vehicles need to shut their engines off when they are

not in them driving down the road. He also stated he believes another mechanic needs to be added to the City Garage. He further stated serious consideration should be given to those that govern in the City should live in the City.

Legislative Comments

Representative Leigh Webb commented about the Secretary of State residency requirements and stated next time he is in Concord he will for sure stop in. He stated he is not sure what the motion for the LSR would be in requiring City Clerks/Town Clerks to live in the City or Town they serve. Recently he advised it came to his attention a discussion about waiting until November 7th to set the tax rate because of an issue of reporting attendance requirements by October 1st by the various School Districts. The conversation took place between the Department of Education and the DRA and they seem to have come to terms and the tax rate will be set at the regular time instead of delaying it.

City Council acknowledgements

Councilor Starkweather thanked the City Staff and the volunteers that helped during the City Election, stating everyone did a great job. Councilor Cournoyer thanked the patriots who entered into a clean and honest campaign and for their patriotism. Councilor Dzujna stated it was great to see 22% over the number of residents normally voting in the City Election and he invited all that ran for office please don't stop come to the School Board and City Council Meetings, he asked that they all be a solution to the problems.

Mayor's Update

The prevailing sentiment in the room was against the project. The Mayor invited Councilors and

the public to attend the grand opening of Federated Auto Parts at 10 am Tuesday, October 8, 2013 in West Franklin which was formerly Mr. D's Restaurant. The Mayor commented that today he was fortunate to sit with Mayor Mat Spencer of Somersworth at a New Hampshire After School Network Meeting in Bedford, New Hampshire and he stated he is looking forward to working with the School Board in the future in creating opportunities for the students at Franklin High School to explore career opportunities here in Franklin so we can offer something to keep our young people in Franklin with careers that can be very rewarding. Mayor Merrifield commented that the head speaker made one point that was very disturbing to him that 76% of Americans age 17 to 24 due to physical, criminal, or educational limitations would be considered ineligible for service in the military. He stated he does not mention that with any negativity in mind but stated he sees it as a call to action.

Flow Metering and Smoke Testing will be performed on the Sanitary Sewer System for Inflow and Infiltration Evaluation during the month of November, 2013. The areas to be tested are Glenn Street Easement; Central Street, School Street, Clark Street, Pleasant Street, Prospect Street West Bow and East Bow Streets, Maple Square, Independence Avenue, Oak Street, Duffy Street, and Mark Street.

Manager Dragon advised that October is National Substances Abuse Prevention Month and the Mayor's Drug Task Force has been working with Franklin High School (FYI) Group to have a Red Ribbon Week as Red Ribbon Week is the nation's oldest and largest drug prevention awareness program.

Manager Dragon commented on the Fuel Depot stating the City had until year 2015 to replace the City fuel distribution system as it will not comply after December 15, 2015. Chief LaChapelle recently met with the State Fuel Distribution Manager and the State project for Franklin is due to go out for bid in January, 2014. The City plans to begin utilizing the State Fuel Depot once it is up and running. Chief LaChapelle is working with Director Lewis to obtain grants for the removal and reclamation of the tanks at the Fire Department.

Manager Dragon requested an MSD Meeting be scheduled to discuss Industrial Park Drive. She advised Halloween will be October 31st which is a Thursday from 5:00 PM to 8:00 PM. The annual Halloween Extravaganza Saturday, October 26th in Odell Park.

Manager Dragon commented the new assessed values are expected shortly, the process of going through and updating the values Citywide and most property owners should have received a letter from the City's assessment firm with their new values and appointments will be held with those that may have questions or concerns about their new values during the third week of October. Overall the City's assessments for residential properties dropped 8.8%, commercial dropped approximately 8.3% overall which was offset somewhat by the foundry addition; however as the City's values drop the tax rate will go up to offset it. In many

cases the tax burden remains the same but not always because it depends upon the category of the property. Lake property is not dropping as much as other residential properties. The goal is to bring the City's assessments to 100% of market value in the year of the City's compliance which is this year. The estimated tax with the new values appears to increase by \$2.70. If the revaluation had not been done and the tax rate had been set strictly on the budget it would have increased by only .18 cents.

Motion to adjourn made by Councilor Feener and seconded by Councilor Desrochers. All in favor, meeting adjourned at 7:00 p.m.

Respectfully submitted,

Sue E. May
