**Background:**

The concept of equipment/rescue trailers and a storage barn has been discussed over 20+ years at the Fire Department. Now that that this trailer concept has become a reality, the last leg of this vision awaits reality. Chief LaChapelle has worked to develop partnerships and relationships that would assist in this program. Through these partnerships, creative funding has been solidified through a grant from 3M Corporation (\$3500) and the use of Emergency Preparedness funds at LRGHealthcare (\$3500). Chief LaChapelle is requesting that the remainder of the funds be withdrawn from the Raymond and Betty Turcotte Memorial Rescue Squad Trust Fund.

At this current time, request for proposals have been distributed to four local contractors. In the essence of time, before winter settles in, a contractor will be chosen with hope to have this structure built by mid-December. Chief LaChapelle has been working closely with design professionals and contractors to ensure a durable and long lasting structure.

The following is a list of equipment that is proposed for storage in this barn; Special Operations Rescue Trailer, Hazardous Materials Decontamination Trailer (LRGH) and Mass Casualty EMS

Equipment Supply Trailer (LRGH). The equipment in these trailers will be used by Fire Department personnel in the time of a Technical Rescue incident, Hazardous Materials incident or Mass Casualty incident. It will also store other miscellaneous items such as seasonal tires for the ambulances and municipal fire alarm equipment.

It is imperative that the trailers be stored undercover in order to maintain operational readiness and maintain longevity of equipment.

The proposed structure will be located on the Hueber Court section of the Fire Station lot. It is a 36'x24' open concept pole barn.

**Fiscal Impact:**

There will be no tax generated revenue used in this project. Three thousand five hundred (\$3,500) will come from the 3M Grant, three thousand five hundred (3,500) will come from LRGHealthcare Emergency Preparedness funds, and no more than eleven thousand (\$11,000) from the Raymond and Betty Turcotte Fund.

The Raymond and Betty Turcotte Rescue Squad Trust Fund currently has a balance of \$83,002.46. As a reminder, it is the opinion of Chief LaChapelle and previous Fire Chief's that only the interest of the Turcotte Fund should be spent on Rescue type projects. The principal of the Turcotte Fund is \$60,000. Funds have been withdrawn from this account five previous times since its inception in 1997.

**Alternatives:**

The alternative is for the Fire Department to continue to store the said trailers outside leaving them exposed to weather and deterioration.
